Title: Reading Difficulties in English Of Grade Four Pupils in District III, Division of Laoag City School Year 1985-1986.
Year: 1987
Acc. No.: 660032
Abstract: This study sought to identify the reading difficulties in English of grade four pupils in District III, Division of Laoag City, school year 1985-1986.

Methodology

The descriptive survey method was used to determine the reading difficulties in English of the grade four pupils in district III, Division of Laoag City. The primary source of data were the results of the oral and silent reading tests administered to 96 subjects: 47 males and 49 females representing 25 percent of the total 383 grade four pupils in district III. The 96 pupil-respondents were randomly chosen from the ten schools of District III, Division of Laoag City, school year 1985-1986.
